

Amend the Past

The past is haunting me
it can never be undone
it's not just a memory
I am singing a different song

I enter the matrix
I am searching for an answer
I'll get high on this fix
I will have to be a dancer

Going back to amend the past
I'll make sure the future last
going back to make everything alright
I'll make sure it's out of sight

Going back to amend the past
I'll make sure the future last
going back to make everything alright
I'll make sure it's out of sight

Disturbed information
running in my body field
got too much exploitation
it is tearing down my shield

Going back to amend the past
I'll make sure the future last
going back to make everything alright
I'll make sure it's out of sight
