

Escape

When I look around myself
all I see is misery
don't you think it's time for us
to turn our heads away

Escape from the TV room
escape from the evening gloom
escape on the highway fast
escape it is my only way

When I watch the news at night
all I want is turn it out
I know it is bringing me down
I only waste my time

Escape from the TV room
escape from the evening gloom
escape on the highway fast
escape it is my only way

Peeping around the corner
stepping lightly on my toes
don't wake up the sleepers now
it's so nice and quiet here

Don't let the Devil in here
no matter what you're doing
saving up for Holidays
keep it down in every way

Living my life in absence
it is making perfect sense
keeping the enemy at bay
keep all intruders away

Escape from the TV room
escape from the evening gloom
escape on the highway fast
escape it is my only way
