

Missing Days

I don't know what has happened here
I got no memory at all
the time is running backwards now
the echo of a light turned out

Missing days
in several ways
missing nights
they're out of sight

I'm walking through a sunken dream
with echoes from a distant past
I'm all alone, nobody's here
and all existence cease to be

Missing days
in several ways
missing nights
they're out of sight

What planet, what star
do you know where we are
where we are

My system, your rules
my perception is blurred
it is blurred

The codes will be unbreakable
when I try to reverse the time
the place will be unreachable
my body's rejecting the cure

Missing days
in several ways
missing nights
they're out of sight

Missing days
in several ways
missing nights
they're out of sight
