

Reason

Why'd you come here so soon
like a thief in the night
I can't see no reason
there has been no fight

I know the reason you are here
I know the reason out of fear

You have just been waiting
patience is your style
You'll get yours in the end
you're not rude or vile

I know the reason you are here
I know the reason out of fear
do you believe the sky is clear
why can't you see the stars are near

Like the birds we fly away
there's no reason to stay

You will see me like a dot
I will miss you like a lot

I'm searching for answers
I'm looking at the past
didn't we just go wrong
thinking we could last

I know the reason you are here
I know the reason out of fear
do you believe the sky is clear
why can't you see the stars are near
