

Wrong

Something's wrong here
Paradise is fading out
I can't get back
to where I was before

I will always be searching
for a better place to be
for the paradise I have
lost now, it's gone for good

Sliding down the slopes
losing all my hopes
Where did I go wrong
it's just the same old song

Going wrong
it's the same old song
Going wrong
it's the same old song

I can't face it
everyday became a drag
color's fading
I'm sitting in a dump

Where to go now
staring in the void of dark
where's my safe spot
it sank into the ground

Sliding down the slopes
losing all my hopes
Where did I go wrong
it's just the same old song

Sliding down the slopes
losing all my hopes
Where did I go wrong
it's just the same old song

I will always be searching
for a better place to be
for the paradise I have
lost now, it's gone for good

Going wrong
it's the same old song
Going wrong
it's the same old, same old song
